Whether the Fish from which our Isinglass is made, be the same as the *Ichthyocolla* of the forementioned Authors, as the Name usually given to it seems to import, I cannot tell: But neither the *Ichthyocolla* of *Rondeletius* or *Bellonius*, nor the *Huso* taken in the *Danube*, from the Bladder of which Fish-glue is made, can, by the Descriptions given of them, be the same as the *Sun-fish*.

XII. *An Account of the Discovery of the Remains of a City under-ground, near Naples; communicated to the ROYAL SOCIETY by William Sloane, Esq; F. R. S.*

I have seen the Well, which is deep, and a good Depth of Water at the Bottom, that I never cared to venture down, being heavy, and the Ropes bad. This City, it is thought, was overwhelmed by an

*Naples*, March 7. 1731-2.
